DETAILED ACTION

RELATED APPLICATION

The status of application Serial No.10/283,723 appearing at page 1, line 5 of the specification should be updated.

Claim rejection-35 USC § 112

Claims 23-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention for the following reasons:

1. While the preamble of claim 23 calls for a method of popping corn, claim 23 fails to recite a positive manipulative step of popping popcorn. Thus claim 23 is indefinite and incomplete. An amendment to claim 23, line 7, after "temperature" inserting -- to pop the corn -- would obviate this rejection.
2. There is no antecedent basis for "the kettle temperature" as recited in claim 23, line 4.
3. It is not clear what is intended by "a dump temperature" as recited in claim 23, line 5.
4. There is also no antecedent basis for "the kettle" as recited in claim 23, line 6.
5. It is also not clear whether the phrase "one rise temperature" recited in claim 23, line 6, refers to a temperature higher than the dump temperature or a temperature lower than the dump temperature as referred to in claim 23, line 5.

Allowable Subject Matter

Claims 23-25 are free of the prior art. Claims 23-25 would be allowable if amended to overcome the rejections under 35 U.S.C. 112 set forth in this Office action.
